## OUR MISSION

Improve the health of the medically uninsured in the Louisville Metro and surrounding areas by providing high quality free healthcare services and wellness education to those who lack appropriate alternatives.

## Meet the Staff

Becky Montague - Executive Director  
 Juanita Richardson - Clinic Manager  
 Fabi Rodezno - Volunteer Coordinator  
 Katie Cameron - Program Coordinator  
 Mary Lee Eady - Nurse Volunteer  
 Gloria Forsythe - Assistant to the Executive Director

## KEN KAELIN

## Lifesaver of the Month

Ken has been serving as a front desk clerk for almost two years, working faithfully for over 300 cumulative hours. His generosity and humble service has been a huge blessing to the clinic, and is a testimony of his dedication to our mission.

## FCC Loves Students

Katie is starting her second year at the FCC as a Masters/PhD-preparing social worker. Katie loves all things research and data! She actually likes the electronic

medical record! Katie helps with grantwriting, program development and coordinating the teams of students who volunteer at the FCC every year. Katie is responsible for enrolling the FCC in the Kentucky Patient Assistance Prescription Program. Katie's hard work has netted over \$70,000 in free medications and inhalers for our patients!

**Thank you Katie Cameron!**

## Supporting our Mission

The FCC runs completely on donations from our generous supporters! Gifts can be sent to 1406 E. Washington St. or made via Paypal on our website at [famcomclinic.org](http://famcomclinic.org)

## BACK TO SCHOOL PHYSICALS

Thank you to Pam King and all the Spalding University students who helped us provide over 50 back to school physicals for students this summer!

Join us in reaching for the uninsured!  
 Apply to volunteer at [famcomclinic.org](http://famcomclinic.org)

## Congratulations Angela Cao!

Five more years and I'm a practicing physician! I promise I'll come back and start an ENT clinic night at the FCC! You all know that the FCC will always have a special place in my heart - and it serves as a model of the kind of

doctor I strive to be! Wishing you all the best in the new building!

Love, Angela
